

INDEX

January–December 1972

Volume 4

METAL CONSTRUCTION

and British Welding Journal

A

Airframe structures in titanium using tensile loading to overcome distortion, Welding, 366
Alloy element loss in MIG welding, 52
Aluminium-alloy armour, 181
Aluminium-alloy in tipping vehicles, 201
Aluminium busbars, welding, 206
Ammonia plant, Brittle fracture in failed, 3
Arc characteristics and metal transfer with plasma-MIG welding, 439
Arc welding, Hot wire methods of surfacing and submerged, 408
Autumn conference 1971, 25
Autumn conference 1972, 453

B

Basis for a proposed acceptance — standard for weld defects.
Part I — Porosity, 99
Basis for a proposed acceptance — standard for weld defects.
Part II — Slag inclusions, 262
BOC looks to the future, 218
Brittle fracture in failed ammonia plant, 3
Busbars. Welding aluminium, 206

C

Cast carbon-manganese steels.
Influence of sulphur on the weldability of, 413
Chromium martensitic stainless steels. Welding wrought 12%, 286
Circumferential electroslag welding of cylindrical sections in Italy, 14
CO₂ welding, gas shielding for, 47
CO₂ welding, Finnish boilermakers use, 256
Copper and copper alloys. Modern approaches to the fabrication and welding of, 245
Cracking and corrosion behaviour of fully austenitic stainless-steel weld metals, Effect of manganese on, 456
Cupro-nickel. Weldability of high strength, 292

D

Deposition for repair and reconditioning, 24
Design, Improving welded product, 25
Determination of fatigue design stresses for welded structures from an analysis of data, 418
Determination of thickness of domed pressure-vessel ends by non-iterative procedures, 174
Diffusible hydrogen analysis, 64
Dimensional control of profiles and recommended machine flame-cutting techniques, 123
Documentation and information services in welding technology, 306
Dynamically initiated fracture in mild-steel water pipes, 258

E

Eastbourne conference, 224
Electroslag refining gets under way, 213
Electroslag welding of cylindrical sections, 14
Electron-beam weldability of three aluminium alloys, 250
Electron-beam welding thick-walled pressure vessels, 399

F

Factors inherent in arc welding which influence grain size, 461
Fatigue design stresses for welded structures from an analysis of data, Determination of, 418
Fatigue of welded steel plates under lateral loading, 363
Field-welding specifications.
Mechanical testing in, 22
Finnish boilermakers speed production by automatic CO₂ welding, 256
Flamecutting for welding shops, 210
Flamecutting techniques, Dimensional control of, 123
Flame-sprayed deposits. Measurement of bond strength of, 11
Friction welding machine, 161
Fracture in mild-steel water pipes, Dynamically initiated, 258
Fracture toughness of C: Mn steels, HAZ, 185
Fracture toughness comparison of weld HAZ and thermally simulated microstructures, 59
Furnace roll. Reclaiming a, 96

G

Gas shielding for CO₂ welding, 47
Grain size, Factors inherent in arc welding which influence, 461

H

HAZ fracture toughness of C: Mn steels, Sub-critical, 185
Heat-affected zone, Internal friction and ductility in, 94
Hot cracking in 5% nickel steel weld metal, 127
Hot-wire methods of surfacing and submerged-arc welding, 408
Hydrogen analysis, Diffusible, 64
Hydrogen diffusion in 24% Cr 1% Mo steels with various sulphur contents, 132
Hydrostatic drive, Research friction-welding machine with, 161

I

Induction heating, Thermal simulator employing, 373
Industrial radiography, 338
Influence of sulphur on the weldability of cast carbon-manganese steels, 413
Information services, 306

Infra-red monitoring of resistance spot welding, 142
Internal friction and ductility in the heat-affected zone, 94
International Institute of Welding, Toronto, 392
Interview: L. E. Smith, 218

K

Kenilworth Conference, 136

L

Laser for welding and cutting, A 2 kW, 460
Laser aids observation of MIG metal transfer, 297
Lateral loading, Fatigue of welded steel plates under, 363
Llanwern exhibition, 221
Listening for defects, 191

M

Magnetic particle testing and its applications, 328
Magnetic testing of welded steel tube, 332
Manganese on cracking and corrosion behaviour of fully austenitic stainless steel weld-metals, Effect of, 456
Marchwood, Welding at, 379
Marine industry, Practical control of weld defects in, 240
Measurement of bond strength of flame-sprayed deposits, 11
Mechanical testing in field-welding specifications, 22
Metal-foil cutting by plasma, 88
Microwaves measure movement, 140
MIG metal transfer, Laser aids observation, 297
MIG welding, Alloy element loss in, 52

N

Natural-gas-filled pipelines, Welding, 83
NDT and the IIW, 345
NDT at Abington, CSWIP, 343
NDT at Abington, SANDT, 340
NDT equipment, Some sources of supply, 346
NDT evening course, 352
NDT in action — X-ray fluoroscopy for aircraft inspection, 350
Nickel steel weld metal, Hot cracking in 5%, 127
Nondestructive Testing Centre, 353
Nondestructive testing—its relationship with welding, 325
Non-iterative procedures, Determination of thickness of domed pressure-vessel ends by, 174

P

Pipelines, Welding natural-gas-filled, 83
Plasma-MIG welding, 216
Plasma-MIG welding, Arc characteristics and metal transfer with, 439

Practical control of welding defects in the marine industry, 240
Pressure-vessel ends by non-iterative procedures, Determination of thickness of domed, 174
Pressure vessel standards — the impact of change, 453
Production engineering aspects of welding, 16
Profile: J. S. Hutchison, 172

R

Radiography by Van de Graaf X-Ray generator, 352
Radiography, Industrial, 338
Reactor vessel, Stainless-steel weld overlay on, 43
Reclaiming a furnace roll, 96
Repair of steel mill-spindle, 319
Research friction-welding machine with hydrostatic drive, 161
Resistance spot-welding, Infra-red monitoring of, 142
Retirement of BOC Chairman, 172
Rollason, Professor E. C.—
Obituary, 212
Russian journal translations, 29, 51, 93, 135, 171, 205, 278, 291, 356, 383, 423

S

Sprayed deposits, Measurement of bond strength of flame, 11
Stainless-steel weld overlay on reactor vessel, 43
Standard for weld defects, Proposed, 99, 262

Standards, Pressure vessel, 453
Steel strip research, 300
Sub-critical HAZ fracture toughness of C: Mn steels, 185
Submerged-arc weld-metal, Toughness and response to fatigue of, 56
Submerged-arc welding, Hot wire methods of surfacing and, 408
Surfacing and submerged arc welding, Hot wire methods of, 408

T

Taiwan reactor, Zirconium calandria fabrication for, 448
Thermal simulator employing induction heating, 373
Thickness of domed pressure-vessel ends by non-iterative procedures, Determination of, 174
TIG welding, U.S. Developments in, 376
Toughness and response to fatigue of submerged-arc weld-metal, 56
Training Today, 20

U

Ultrasonic Testing, 336
Underwater welding, 167
U.S. Developments in TIG welding, 376

V

Vanadium steels for high temperature service, Welding, 281

W

Weldability of high strength cupro-nickel, 292

Weldability of cast carbon-manganese steels, Influence of sulphur on the, 413
Welded steel plates under lateral loading, Fatigue of, 363
Welded steel tube, Magnetic testing of, 332
Welder with lung illness loses test case, 227
Welding airframe structures in titanium using tensile loading to overcome distortion, 366
Welding aluminium busbars, 206
Welding and fabrication of non-ferrous metals, 225
Welding at Marchwood, 379
Welding defects in the marine industry, Practical control of, 240
Welding in steel, 221
Welding natural-gas-filled pipelines, 83
Welding of structures — past, present and future, 68
Welding steel sheet and strip, 136
Welding technology, Documentation and information services in, 306
Welding underwater, 167
Welding vanadium steels for high temperature service, 281
Welding wrought 12% chromium martensitic stainless steels, 286

X

X-ray fluoroscopy for aircraft inspection, 350

Z

Zirconium calandria fabrication for Taiwan reactor, 448

INDEX TO AUTHORS

A

Adams, M. J., 399
Arink, G., 286

B

Bahrani, A. S., 161
Bartle, P. M., 191
Bates, C. C., 41, 173
Begg, W. S., 363
Bezer, H. J., 328
Blelock, R. Andrew, 180
Boyd, G. M., 63
Braithwaite, R. G., 81
Brown, K. W., 399
Bryant, R. T., 306
Bunting, Dr. K. A., 88
Burrill, E. L., 239

C

Catherall, J. A., 11
Charnock, W., 56
Chew, B., 64, 132
Clarke, P. J., 20
Cookson, Clive, 319, 97

D

Dawson, R. J., 245
Deeson, Eric, 213
Dickson, G. R., 161
Dolby, R. E., 59, 185
Donaldson, K. J. S., 140
Dowden, W. A., 336
Duffin, F. D., 161

E

Essers, W. G., 439
Evitts, A., 43

F

Fabing, F. T., 64, 132
Formby, C. L., 56
Fuchs, E., 81

G

Gooch, T. G., 456
Gurney, T. R., 418

H

Haddrill, D. M., 22, 373
Harrison, Dennis W., 201
Harrison, J. D., 99, 262
Hazelhurst, R. H., 366
De Hertogh, M. J., 83
Honeycombe, Mrs. J., 456
Houldcroft, P. T., 80
